PC GN PAN

Well Stacking
Secure and stable stacking results from the marriage of clever design and precise processing.

Wide Flange Design
The wide flange design ensures easy holding and right fit in prep and steamtables.

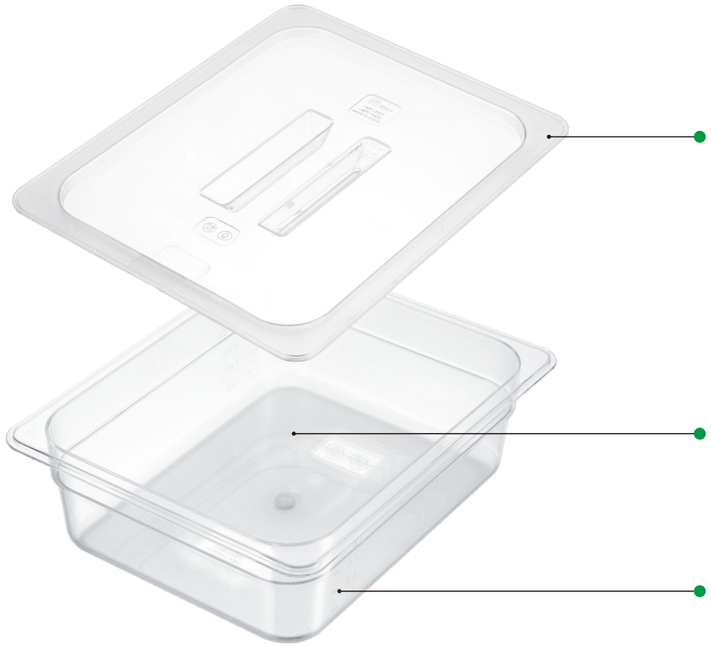

Withstand Temperature
-40℉-210℉
-40℃-99℃

PC GN PAN

-Features good fresh keeping
-Durable construction makes no deforming,no hollowing and no cracking. Smooth interior makes clean up easy. withstands temperatures from -40℃to 99℃(-40℉-210℉)
-Colour:Clear,Black.

Clear And Smooth Surface
Ensure overall view to the content and easy clean.

Textured Bottom
Textured bottom prevents scratches and improves durability.

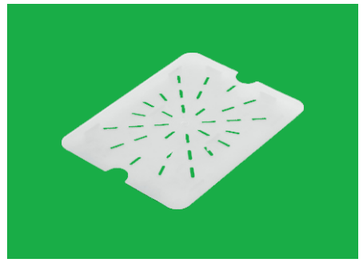

Capacity Mark
Capacity indicators at the sides of pan are listed in liters.Allow easy measure and capacity control.

Flat Lid
Extra convenience of visibility

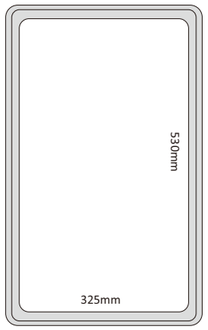

Notch Lid
U shape of notch lid makes it easy for ladle or spoon access.

Drain Shelf
Support products and promote drainage.

GLASS RACK

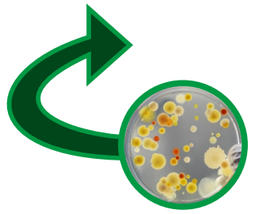

Perfect Washing & Sanitary Storage System

Glassware stays clean when in storage,so one time washing is enough.

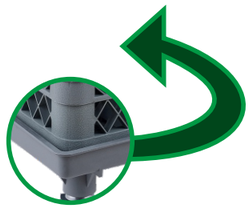

No Dirty Hands

No Bacteria

No Dirty Mop Water

GLASS RACK

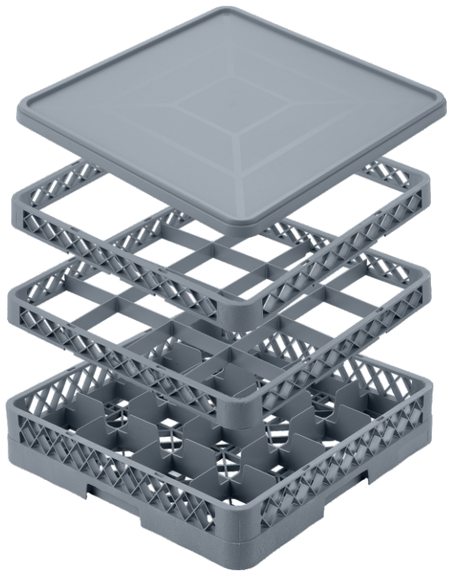

These racks offer complete protection for all your delicate and valuable stemware and tumblers,from washing and handling to stacking,storing and transporting.

Choose the Correct Dishrack

1.Measure the maximum diameter of your glass(stemware or tumbler)to determine the number of compartments

2.Measure the maximum height of your glass(stemware or tumbler)to the top edge of the rim to determine the compartment height.

Rack Cover

Open Extender

16-Compartment
Rack Extender

16-Compartment
Glass Rack

Base Rack(2 Colour)

Gray

Brown

To improve work efficiency and easy to identify rack contents,We recommend base rack and compartment to be color-coded

STEADY CONSTRUTION

Clever structure design bring extra convenience of packing and stacking

COMFORTABLE HANDLING

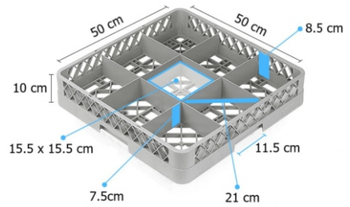

Easy-to-grip.Tough handles with texturing on four sides provide comfortable handing.

OPEN INSIDE COMPARTMENT

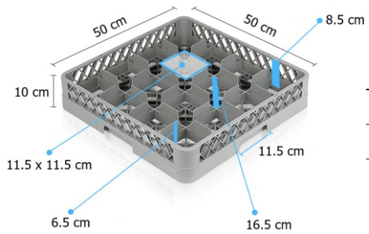

particular wave patterns and open inside compartments ensure thorough washing,and advance air circing to dry inside faster.

FIRMLY LOCK

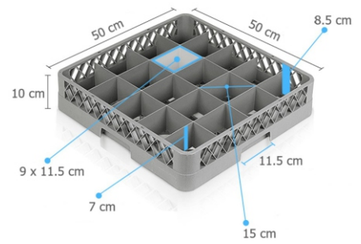

The well cutting snap-fit could lock the layers firmly.More safety for shipping and stacking.

Plastic PLATE LID

Transparent
Its clarity allows you to see the contents of the plate without lifting the lid and losing heat.

Easy to Use
Additionally, it features a finger hole that allows you to safely and easily lift the cover.

Durable Construction
It is safe and stackable with additional covered plates for easy transportation and storage. Made of durable, easy-to-clean polycarbonate, it is also break-resistant, which allows it to stand up to everyday use in your establishment!

STORAGE CONTAINERS

STORAGE CONTAINERS

PC&PP materials are available in round or square.Perfect storage for raw.prepared and cooked food.Refrigeration allowed.

Contens and Date Indicators On Lid

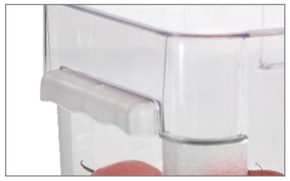

Spare space of the lid can be marked with contents and date indicators,convenient to keep the quality and freshness of food.

Textured Lid

Made of polyethylene;Non-slip textured surface is resistant to scratches and it helps more stable stacking.

Wide and Easy Handles

Comfortable,wide and textured finish provides a secure grip.Drain holes in handles allow for quicker drying. Wide cove handles save effort when transported and do not waste space.

Stackable lugs

Corner stackable lugs add strength rigidity and prevent jamming when stacked.

Date Indicator

Date indicators on all four sides for easy recognition

Textured Finish

All corners,edges,handles and the bottom are designed with textured finish. It can reduce scratches,increase service time and provide safe use.

ROUND STORAGE CONTAINERS(PC/PP)

-Made of impact,stain and chemical resistant polycarbonate material,food acides or oils won't stain or harm the container.
-Withstand temperatures from -40℃ to 99℃,so containers can be used in the freezer or cold cabinet.Easy to read graduations printed on the outside of quick inventory management.

ENVIRONMENTAL SHELVINGS

It's necessary to deliver frequently in commercial foodservice,Shelvings are absolutely durable,stable and able to meet health standards.Environmental Shelvings can accurately achieve the design in order to load the heavy and difficult handling products,in the meanwhile, it's easily to adjust and clean.
Shelving is a modular system that allows the flexibility to assemble shelving to fit any area.The key components,including psts,post connectors,traverses and shelf plates,are available in a variety of sizes.They can be easily configured to custom build shelving to maximize storage space.

MULTI ENVIRONMENTS USE From -38℃ To 88℃

STATIONARY UNITS	HIGH-DENSITY UNITS	MOBILE UNITS	DAILY FREQUENT DELIVERY	HEAVY STORAGE NEEDS

Product Characteristic

Easy to adjust and configure

Shelving is flexible for building any configuration and areas.Eash part is available for a variety of sizes to meet the needs of different customers.
Shelves can be adjusted in 4"(100mm) increments without disassembling the entire unit.the traverses on both the first and second unit share the middle post.Corner connectors can be used to build a 90 degree angle corner unit or u-shape unit.

Absolutely strong,durable and stable

As strong as steel

Posts and traverses are made of a steel core with a thick polypropylene surface which make the shelving strong and durable.
There is no loss of weight bearing capacity when built in a straight line for two units to share posts.Corenr connectors are recommended for use on traverses equal to or shorter than 48"(1220mm)
Dunnage stands used only on the bottom shelf,recommended for units equal to or longer than 54"(1380mm)
Due to the weight bearing capacity of casters,maximun weight load on an entire mobile unit is 340kgs.

Rust resistance

Can be used in any area,wet or dry

Shelving is weldless with no exposed metal so it remains rust free and ideal for using in cold,frozen or humid environments.

ENVIRONMENTAL SHELVINGS

Maximize Space Utilization

Components have been thoughtfully designed to maximize storage space,even in space-restricted areas.

Starter Unit

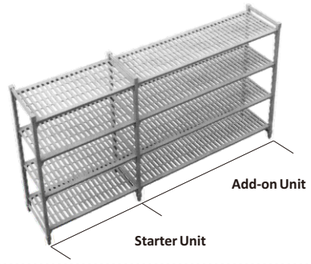

All kinds of shelving parts can be combined to various basic units withdifferent specifications,and to be formed a unified body by combination of basic units.

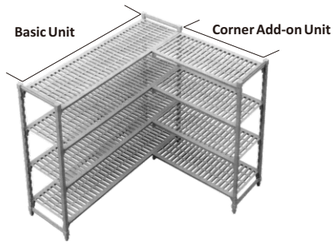

Vented Basic Unit

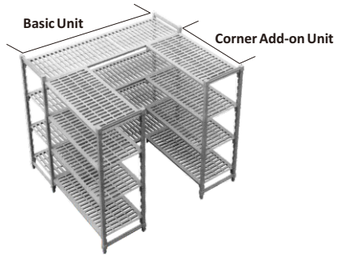

Solid Basic Unit

Corner Unit:using the corner connector to make more space available.

Mobile Unit

Using special-purpose post to move shelf and insert casters,mobile units can be built by shelving units.
Mobile Units make the store are more convenient.
Mobile Units are not designed to serve as transport carts.

Dunnage Racks

keep frozen,cold or dry inventory 12"(30.5cm)safely off the floor.One plece construction and sturdy legs provide strength and stability.Heavy duty polypropylene is safe to -36°F (-38℃),and will not rust,corrode or bend.Choose slotted tops for maximum air circulation around perishable products.Solid tops catch spills for easy clean up.

Item No.	Bw812001	Bw812002	Bw812003	Bw812004

Overall Length of Environmental Shelvings Series—Reference Guide

Straight Unit:Starter Unit+Add-on Unit(with shared post)

Starter Unit Actual Length		Add-on Unit Actual Length		Overall Length
910mm	+	855mm	=	1765mm
1060mm	+	1005mm	=	2065mm
1220mm	+	1165mm	=	2385mm
1370mm	+	1315mm	=	2685mm
1525mm	+	1470mm	=	2995mm
1825mm	+	1770mm	=	3595mm

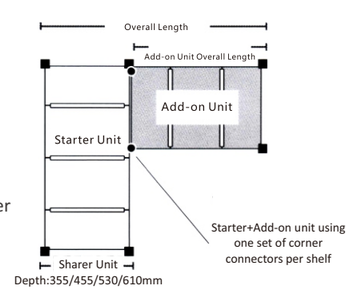

Add-on Unit

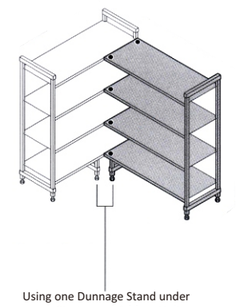

When adding on to a basic unit,the traverses on the first and second unit share the middle post.As a result,only two additional posts,instead of four posts or any add-on clips are needed.This simplifies assembly and reduces costs without any loss weight bearing capacity.

Corner Unit:Starter Unit+Add-on Unit(with Corner connectors)

Corner Unit and U Shape Units

Using one set corner connector on each shelf that can stand on the basic of 90° angle to connect with the add on unit.Corner connector can be also used to build the U-shaped units by connecting with each shelf of two basic units. Traverses snap onto the corner connector same as they snap on to dovetail the post.

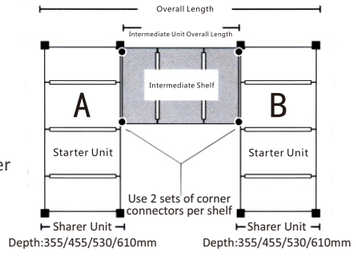

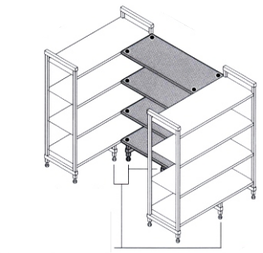

U-shape Unit:Two Starter Unit+Intermediate Unit(with shared post)

Corner Unit and U Shape Units

Using one set corner connector on each shelf that can stand on the basic of 90° angle to connect with the add on unit.Corner connector can be also used to build the U-shaped units by connecting with each shelf of two basic units. Traverses snap onto the corner connector same as they snap on to dovetail the post.

ENVIRONMENTAL SHELVINGS

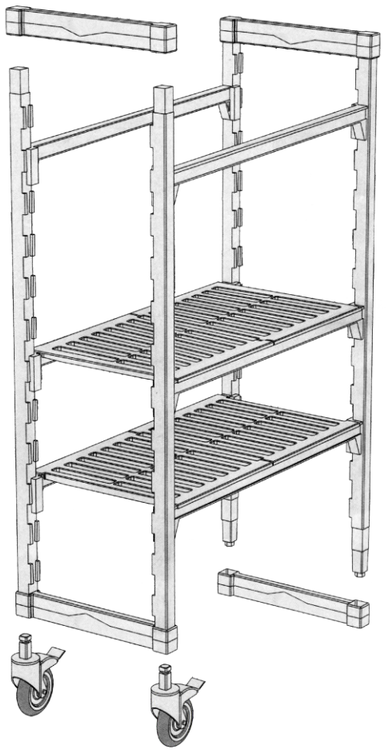

FITTING

Post Connectors can hold two posts together and specify the width of the unit.Marked with a obvious top and bottom symbol makes quick identification.

Contains two posts and one set top and bottom post connector.

Traverses

Steel core inside and Polypropylene surface can provide strength and durability.
Traverses connect to the sliding on to the joint on the post,two traverses can build one shelf and specify the length of the unit.

Made of polypropylene which is easy clean and dishwasher safe.

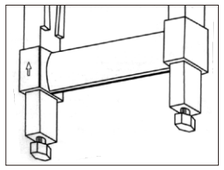

Shelf kit

Includes two traverses and shelf plates for matching the length of traverses.

Solid Shelf Kits

Vented Shelf Kits

Post Of Starter Unit

Steel core inside and polypropylene surface can provide strength and durability.

Casters

We have the standard casters for dry storage applications as well as for the cold,clammy advanced caster applications.

Dunnage Stand

Recommended be used for heavy products,when the length of the unit no shorter than 1380mm,
and the bearing weight arrive at 450kgs.

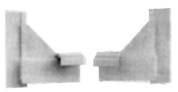

Shelf Plates

Shelf plate is made of Polypropylene,
vented and solid designs are available.

Vented Shelf Kits　　Solid Shelf Kits

Corner Connector Set

Corner connectors attach a basic unit to a second unit in a 90 degree angle or between two units to form a U shape.
A set of corner connectors are needed for each shelf,
when using corner connectors weight bearing capacity will decrease to 400ibs(180kg)per shelf.
Corner connectors are recommended for use on traverses equal to or shorter than 48"(1220mm)

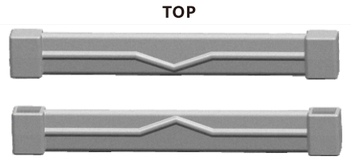

Corner Connector

Item : (Left & Right)

Post Connectors

Post connectors hold two posts together and define the width of the unit,they are made of polypropylene and provide exceptional cross stabilization.
